It seemed to be a solvent under which the mystery of the yellow window shade melted immediately, and Pennington rejoiced. The paragraph told of the accidental discovery of a murderous plot by the blunder of one of the conspirators, who imagined that an uninterested outsider was a member of the brotherhood. But on the evening of the cond day a slight occurrence brought the matter forebly to his mind, and all the old hopes which had been shattered by the transfer returned with renewed force. Coming home rather late, he used unnecessary force in drawing down the shade of his bedroom window, with the result that the spring parted from the roller and the screen collapsed. Pennington tried vainly to repair the damage before he remembered that he still had the yellow window shade in his possession, and the discovery made him exceedingly jubilant. He decided to use it in the place of the damaged one, and the decision brought back all the hopes that had been brought to life by the newspaper paragraph. If the yellow newspaper paragraph. He pondered over it each morning as he glanced across the street before leaving for his office, and it set him wondering each evening as he sat at the window of his own room. One question revolved continually within his mind, but no satisfactory answer was forthcoming. Why should the figure was plainly visible.

It's simply a good, honest, square deal medicine with no alcohol, or injurious, habit-forming drugs in its composition. Made wholly from roots. It can do no harm in any condition of woman's organism. Devised and put up by a physician of vast experience in the treatment of woman's

It's foolish and often dangerous to experiment with new or but slightly tested medicines-sometimes urged upon the afflicted as "just as good" or better than "Favorite Prescription." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Favorite Prescription.
